

REMARKS AND RESPONSE

Claims 1-11 are pending with new claims 8-11 presented herein. New claims 8-11 are identical to claims 3-6 but dependent on claim 2.

Applicants hereby provisionally elect, with traverse, Species 1B (claims 2 and 8-11) for initial examination in this application. Claims 2 and 8-11 read on the elected species.

Applicants respectfully traverse the election requirement since all of species are sufficiently related that a thorough and complete search for species would necessarily encompass a thorough and complete search for Species IA and IB. Thus, search and examination of all species herein could be made without serious burden. See MPEP §803 which states that “[i]f the search and examination of an entire application can be made without serious burden, the Examiner must examine it on its merits.” This policy should apply in the present application to avoid unnecessary delay and expense to applicants and duplicative examination by the Patent Office.

For at least the foregoing reasons, reconsideration and withdrawal of the election requirement and examination of all species herein are respectfully requested.

Respectfully submitted,
